At the **Midwest Bone & Joint Institute**, we realize sports injuries don't only happen on weekdays and taking off work to see a doctor isn't always an option. That's why we started our Saturday Morning Sports Injury Clinic and staff it with board-certified, fellowship-trained Orthopedic Sports Medicine Surgeons.

We treat athletes of all ages and all levels – from children, to weekend warriors to professionals. With X-ray, open MRI, casting capabilities, physical therapy and sports medicine physicians all under one roof – you can get a diagnosis and treatment without ever leaving the building.

Don't spend another minute on the sidelines. Let us help you get back in the game of life!

Saturdays - 9:00 a.m. - 12:00 p.m.
Midwest Bone & Joint Institute
420 West Northwest Highway
Barrington, IL 60010
